

Broadsea Bay

**Section 1
Day 7**

**Portpatrick
to Lady Bay
Loch Ryan**

Launching 90 mins before high tide, on a 10.2m spring tide, into glorious sunshine & miraculously light winds, Tommy has completed the visual check and we are good to go. Becki updated the Coastguard first thing.

Today's crew

This crew have rowed together before regularly. A mixture of Wigtown Bay and Stranraer, today's journey has been about laughter, teamwork, more amazing views and wildlife.

Milleur Point

Heading north up the Rhins we passed Knock Bay and Broadsea Bay before passing majestic cliffs, around Corsewall Point, and Milleur Point.

From Corsewall

On landing Ken & Jack towed Lady Bay to secure storage at Stranraer ready for tomorrow's final row in.

Knock Bay

Muriel gave the Wigtown Bay contingent a lift home in her campervan. Another great day!

Killington Light
